in the anthropocene our actions are coming home to roost global warming species extinctions and environmental disasters are the dark side of our mastery of nature in acting with the world andrew pickering identifies a different pattern of being and doing that can evade this dark side a pattern which he calls acting with the world in contrast to our usual practice of acting on the world acting with foregrounds nonhuman or more than human agency and aims to attune our

practices to the propensities of nature pickering explores examples of acting with from around the globe including flood control on the mississippi river ecosystem restoration on the colorado river the room for the river project and rewilding in the netherlands natural farming in japan aboriginal fire techniques in australia and amazonian shamanism pickering argues that acting with intimately and gracefully plugs us into nature undercuts the anthropocene from below and offers a constructive approach to addressing otherwise intractable wicked problems
